Company Profile

Description	: May we be blessed with health and blessings. PT Amood Healthy Foods was founded by Muhamad Alamudi in August 2019. During its seventh years of operation, PT Amood Healthy Foods has always tried to be a business that applies sustainable principles. We do this in every business process starting from recruiting human resources, selecting raw materials, the production process until the product is delivered to the customer. As a business that focuses on the production of processed healthy food and drinks, we always strive to provide healthy food needs made from the best raw materials at more affordable prices. Hopefully this short preview can be a first step in getting to know our business more closely, as well as proving that we are not running this business solely to make a profit, but can also make people healthy wherever they are.
