CENTRAL JAVA - INDONESIA

Company Profile

Description

: SYAILENDRA BUMI INVESTAMA (Syailendra BI) is a social enterprise engaged in environmentally friendly integrated agricultural business. Since its inception, Syailendra BI was designed as a holding company for spice farmers and essential oil distillers who want to work together for quality oil production and international trade. Currently, there are hundreds of farmers/distillers from various villages throughout Indonesia who are members of the "Paguyuban Emas Hijau" a forum for empowering member businesses. Since 2014, we have pioneered the cultivation of aromatic plants, especially herbs & spices. Together with farmers/distillers, we produce essential and vegetable oils from various plants typical of Indonesia's natural wealth. We process waste from distillation to be reused to become zero waste. Our products are usually used as raw materials in the natural health industry, natural cosmetics and skincare, aromatherapy, food, flavor, fragrance, natural perfume, toiletries, fuel savers, and industries that require other natural ingredients. In 2018, we routinely supplied essential oils to national exporters and the domestic aromatic industry. And starting in 2020, we started exporting essential oils and vegetable oils directly until now to more than 10 countries, including France, Singapore, Malaysia, Cambodia, Canada, India, South Korea, Dubai, Kuwait, Switzerland and expanding to other countries.

Business Type

: Exporter and Producer

Main Product

: Essential Oils, Carrier Oils, Natural Isolate Oils, RBD Oils, Hydrosols.
